SPECIALITÀ SMART

Grind **Smarter**

MIGNON SPECIALITÀ
SMART
Grind **Smarter**

1 **Burrs Distance Detection System** PATENTED
with distance visible onscreen, to fully comprehend the exact grind size and be always able to find the real zero as well as the desired setting for your recipe.

2 **Smart Technology** PATENTED
to guide user in reaching the perfect grind size for the recipe.

3 **New 2.8', multi-colour, responsive, high-resolution touch display with advanced features:**
- Digital Easy Setting to be always aware of the grind range (Turkish, espresso, moka, drip, French-press)
- Recipe book to save your favorite recipes
- 2 programmable doses, with the option to activate the 3rd one or the "Extra dose" mode.
- Single dose mode

4 **55mm flat burrs, Espresso & Brew design** | high precision burrs with high grind capacity (1,8-2,5 g/s Espresso | 2,5-3,2 g/s Brew), developed to achieve excellent espresso as well as good results in filter coffee.

5 **New heavy-duty metal fork** | for greater stability and handsfree operations for any portafilter. Adjustable without any extra tools!

6 **New hopper,** | equipped with metal tab and fine finishes.

7 **Silent Technology**

8 **Mignon Specialità SMART Dosing Funnel** included.
Recommended for:
Single shot > 8 grams
Double shot > 15 grams
Triple shot (20 – 22 grams)

Recommended grinding modes

SUGGESTED USE:
/ Turkish / Espresso / Mokka / Drip / French Press

Burrs Distance Detection System

with **real-time digital display**, allowing **precise visualization of the burrs' gap**. This feature enable users to **accurately identify the true zero point** and fine-tune the optimal grind setting and brewing recipe, ensuring **unmatched repeatibility and control**.

SMART Technology

An advanced guiding technology designed to **assist users** in precisely adjusting the grind size to **match the optimal parameters** of each brewing recipe, **ensuring accuracy**, **consistency**, and **superior cup quality**.
